

# THE PEOPLE'S PLAN: DIGNITY & JUSTICE FOR ALL

## A bold vision for a caring economy & a just democracy

### PUBLIC HEALTH

#### Health Care for All

Free, universal, publicly funded health care — doctor visits, medicine (including gender-affirming care), dental care, vision care, and urgent care without financial barriers.

#### Basic Needs

Housing, food, water, energy, and communication are human rights — guaranteed for all.

#### Care

Child care and elder care must be treated as general welfare and a universal right.

#### Education for All

Free, high-quality pre-K through tuition-free public colleges and universities.

#### Disability Justice

Strong protections and full accessibility everywhere — schools, jobs, transportation, housing, and digital spaces.

#### Reproductive Rights

Comprehensive reproductive health care, contraception, and full access to abortion — free from stigma and interference.

### JOBS & ECONOMIC DIGNITY FOR ALL

#### Jobs Guarantee & Fair Wages

One job should be enough. Guaranteed living-wage jobs with benefits for all who want to work. Investing in people strengthens families, boosts communities, and builds a fair economy.

#### Workers' Rights

The right to organize, join a union, bargain collectively, and strike without restrictions — for dignity and the common good.

#### Retirement & Rest

Dignified retirements, shorter workweeks, and paid leave for everyone. Life should include rest, care, and joy — not an endless grind.

#### Stronger Communities:

Invest in community-led development: housing, public spaces, transportation, and services that let families thrive.

### ECONOMIC SUSTAINABILITY & DEMOCRACY

#### Democracy & Justice

End corporate control. Get big money out of politics, protect voting rights, and have the wealthy and corporations pay their fair share. Elections should be decided by majority vote.

#### Safe Communities

End over-policing, mass incarceration, and the criminalization of poverty. Law enforcement must be held accountable, and resources must go into schools, jobs, and health care — not jails.

#### Knowledge for All

Fund science, education, arts, and culture for the common good. Knowledge is a public treasure, not a corporate product.

#### Digital Rights

Break up Big Tech monopolies, protect privacy, and guarantee affordable internet access for everyone.

#### Clean Energy & Planet

Institute a Green New Deal to create millions of jobs, protect health, advance climate justice, and build resilient communities.

#### Money for Jobs, Not War

Cut wasteful military spending and terminate endless wars. Invest those resources in schools, housing, health care, and jobs here at home. Curtail presidential war powers. Non-interference in the internal affairs of other nations. Respect international law.

#### Fair Immigration

Immigrants are part of our families and workforce. End deportation abuse and detention, dismantle unjust systems, and guarantee immediate legal (permanent residence) status and dignity for all immigrant workers.
